

Economic

No shipping needed for main app, but needed for smart home device

Brandon Bernal-Andrade

Base app would be free, however the smart home device from clients and the main revenue income maybe come from leasers.

Brandon Bernal-Andrade

Income source?

lindsay manalang

Platforming / Products

Implementing the app on the App store

lindsay manalang

How are we making ads? Digital, physical, etc? and where to post?

lindsay manalang

Try to focus on an app and develop a website too

lindsay manalang

Product Ideas:
A smart home device that has reminders for tasks for the person, allows them to confirm a task done, and general smart home support.

Brandon Bernal-Andrade

frontend: react native or kotlin mutliplatform

backend: python django

Brandon Bernal-Andrade

Advertisement / Business Scaling

Need a catchy name and logo

lindsay manalang

Make a funny tiktok account to bring in engagement

Brandon Bernal-Andrade

Customizable layout through an award system (ex. completing tasks)

lindsay manalang

Scale up by going to different companies away from college dorms

Brandon Bernal-Andrade

Scaling can also lead not living, but also task delegation for organizations

Brandon Bernal-Andrade

Client foci

Are we working with the apartment or as a solo company

lindsay manalang

Target audience would be college students but can also expand to other groups who have roommates

lindsay manalang

The only “leaders” would be the the leasers

Brandon Bernal-Andrade

Clients should be on equal footing

Brandon Bernal-Andrade

Directly work with clients and leasers to see what should be implemented

Brandon Bernal-Andrade
